

GUARDIAN[®] PROPANE SELF-CONTAINED MERCHANDISER

DAIRY | DELI | PRODUCE | FRESH MEAT | BEVERAGE | FROZEN FOOD | ICE CREAM

GUARDIAN[®]

merchandiser

CGLC30 • CGMC30

The Guardian[®] Merchandiser is a self-contained propane solution designed with versatility and efficiency in mind. The roof mounted packaged refrigeration unit centralizes service access while keeping the case interior open and unobstructed. By reducing internal components and consolidating service points, the Guardian[®] Merchandiser lowers maintenance complexity and supports reliable, long term operation.

- **REVERSE AIRFLOW**
Reverse airflow design mitigates frost on products/doors, ensuring clear visibility and product integrity.
- **PLUG AND PLAY**
Roof-mounted packaged refrigeration unit (PRU), designed to be ready to go by simply plugging in the case.
- **STRUCTURE**
Engineered for durability, these cases support PRUs plus an extra 250 lbs, with rigorous ceiling load testing for reliability.
- **INSTALLATION**
Designed for effortless installation, this case fits through standard 80" doorways and moves easily from truck to store via forklift, streamlining setup.

GROCERY

END CAP

PICKUP

RENOVATION

An ideal solution for retailers who want easy-to-maintain lineups without the need for a traditional rack. It enhances the checkout area while supporting a cleaner, more efficient front-end experience.

Perfect for promotional items, grab-and-go products, or seasonal features—this end cap solution boosts product visibility, drives impulse sales, and has a compact design for flexible store placement.

Keeping groceries at the right temperature and neatly sorted, our solutions are easy to install in pickup zones. This enables quick, accurate pickups with minimal wait time for customers.

Great for temporary placement, our solutions keep your merchandise accessible and organized throughout the remodel process. With flexible, quick installation, you can seamlessly transfer cases between stores during renovations.
